

Baby Boom and Baby Boomers: A New Family Pattern?

Presentation by Ignace Olazabal, Ph.D.

Definition

- Baby boomers are, in fact, the kids born after Second World War who subscribed to the slogan; who gets instruction will grow wealthy.
- We have to distinguish baby boomers from the mass of kids of the baby boom. So baby boomers are those born in the baby boom who have university diplomas, meaning *par excellence* this modernisation that the province of Quebec knew during the 60's.
